# 1. Diagramme de cas d'utilisation

## Use case diagram

Jotern v1 · UML  
2026-10-05

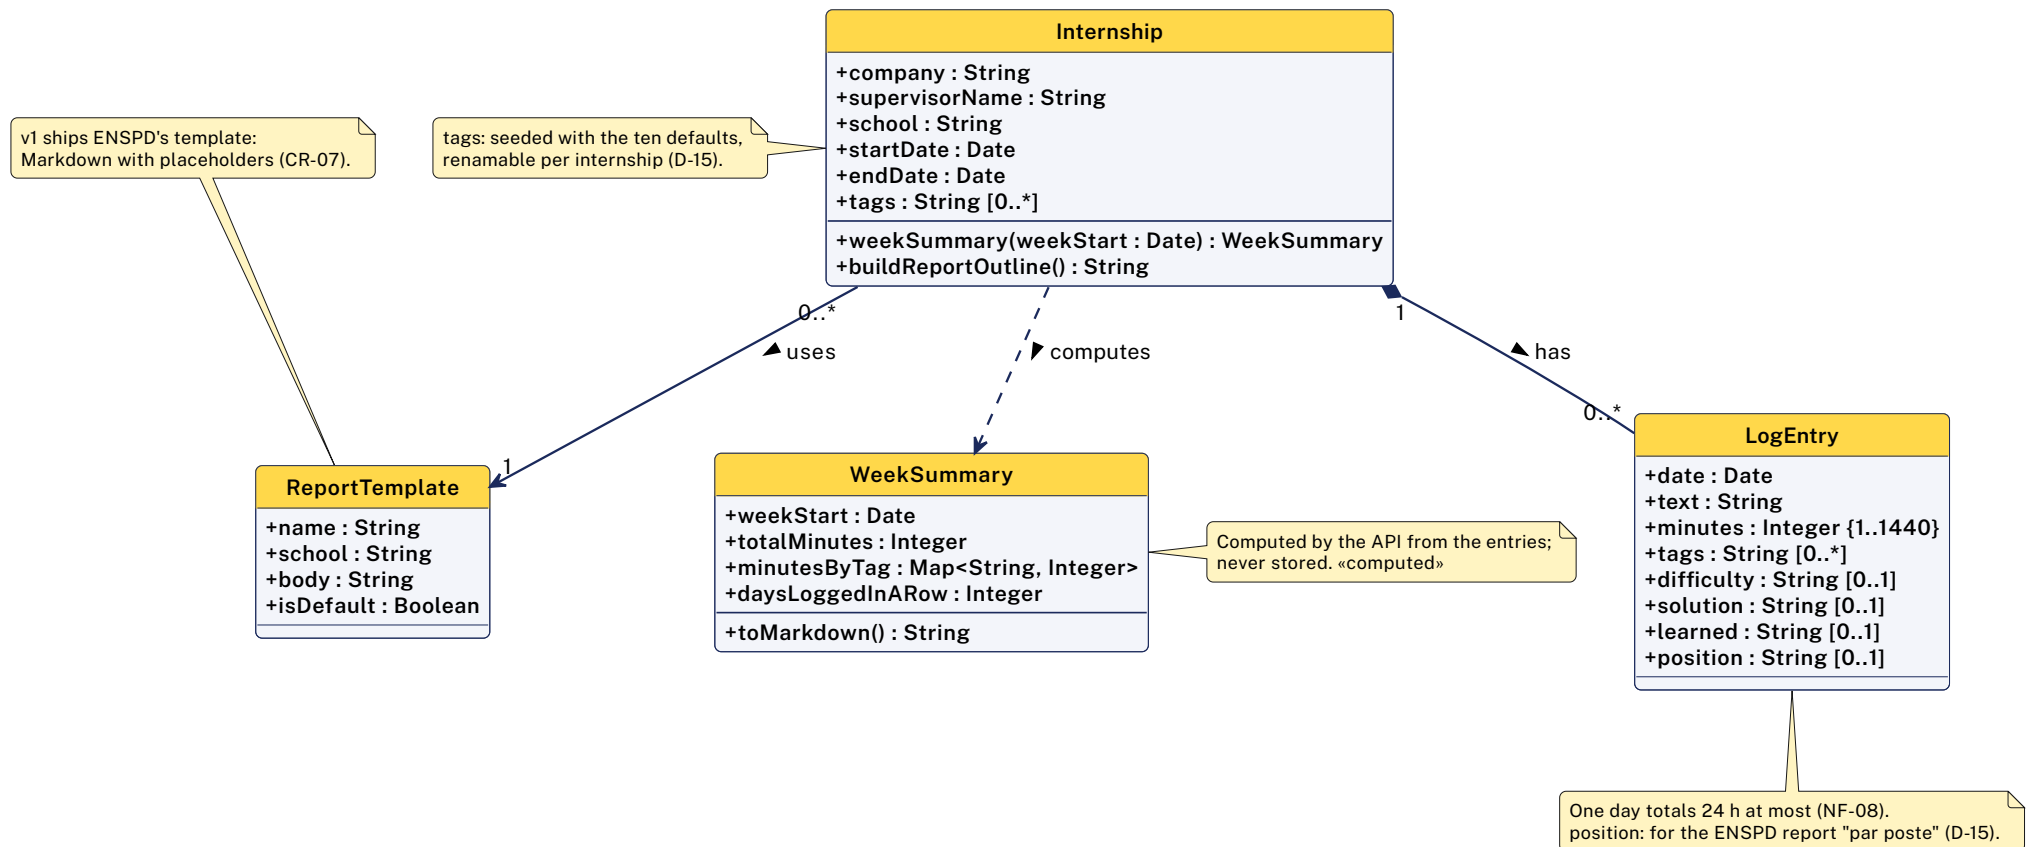

The intern's v1 use cases; the Later actors and use cases greyed out. US-09 (own template) is Later (CR-07); US-11 (offline) is a note, not a use case.

## 2. Diagramme de classes

### Class diagram

Jotern v1 · UML  
2026-10-05

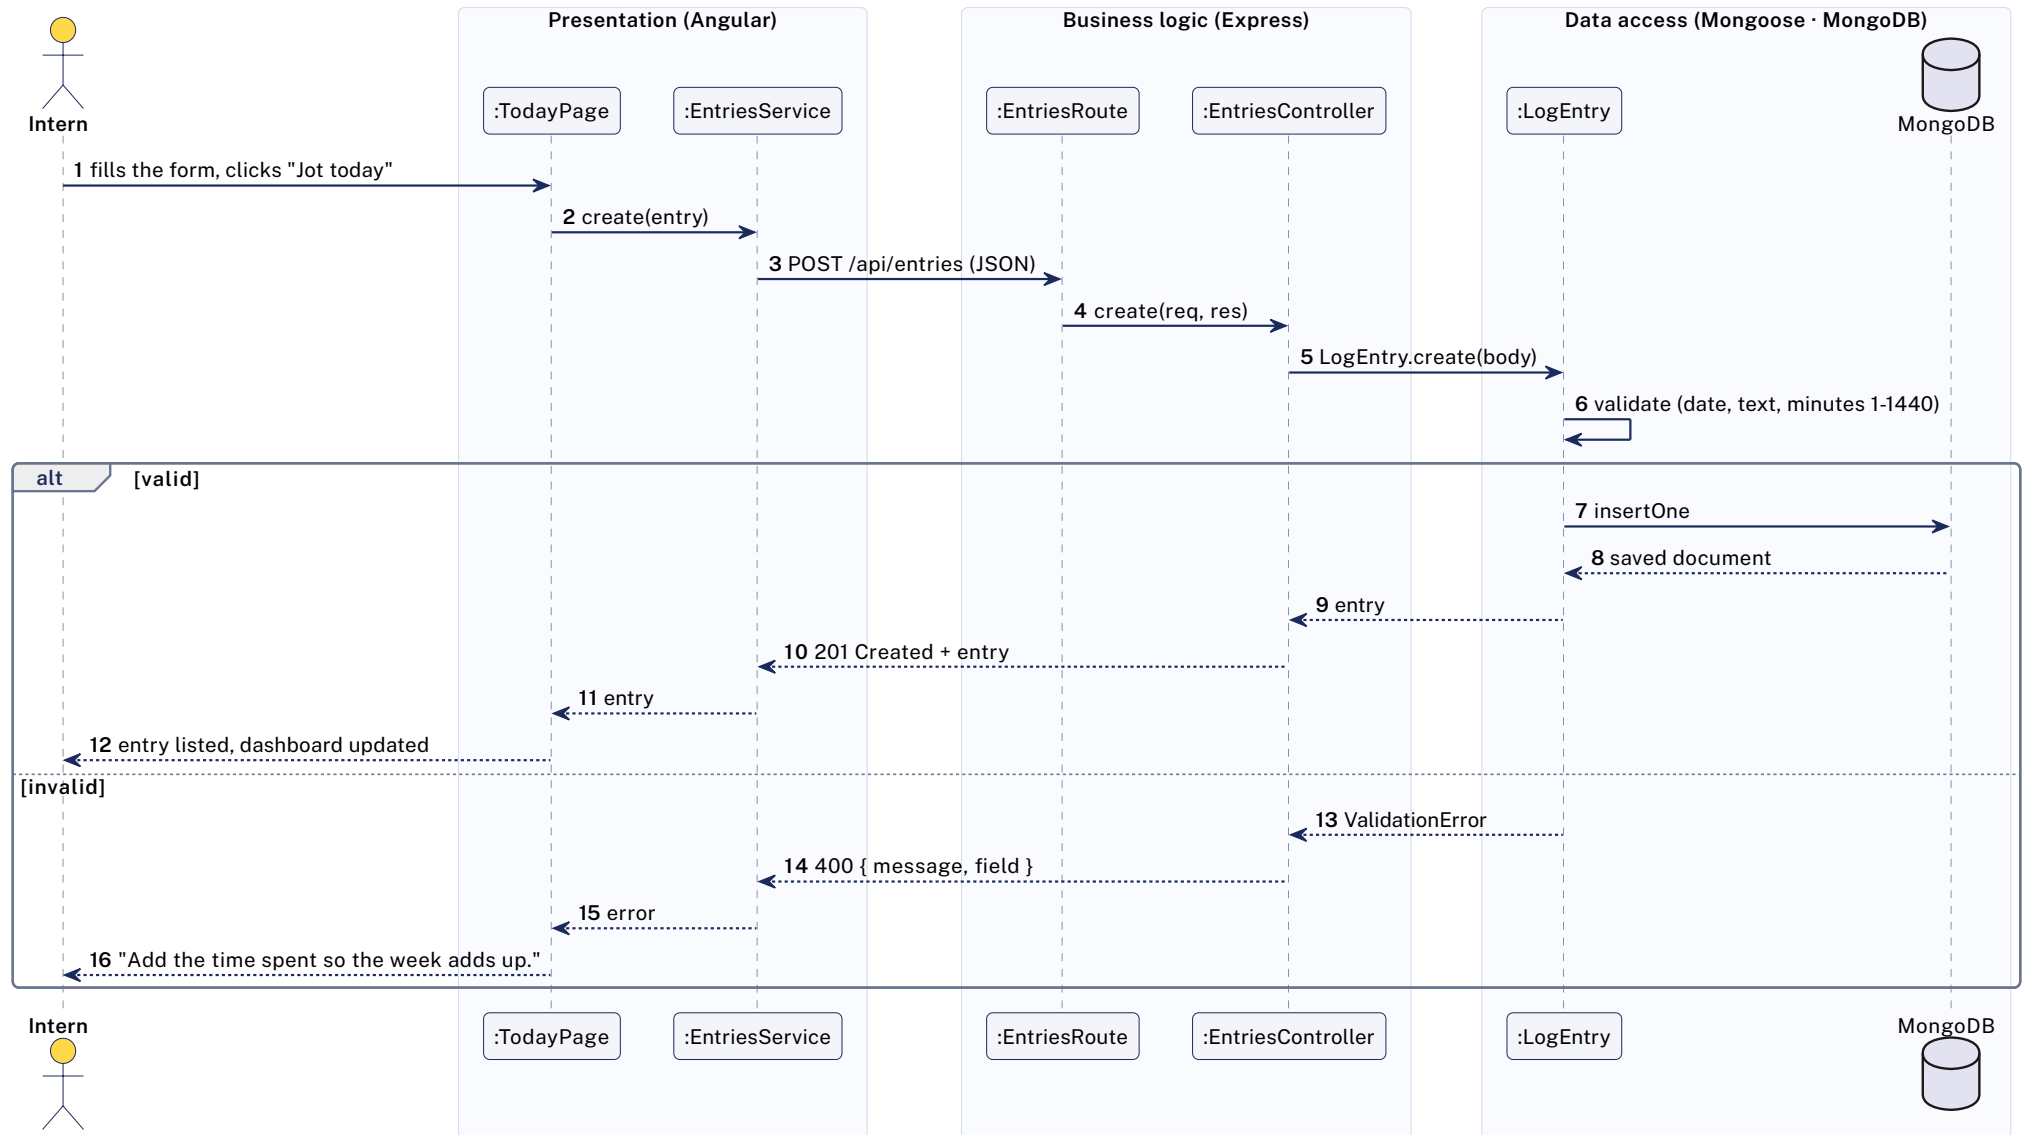

The v1 data model. Tags are a list on Internship and position is optional on each entry (D-15). The week is computed, never stored.

### 3. Diagramme de séquence : ajouter une entrée

Sequence diagram: add an entry

Jotern v1 · UML  
2026-10-05

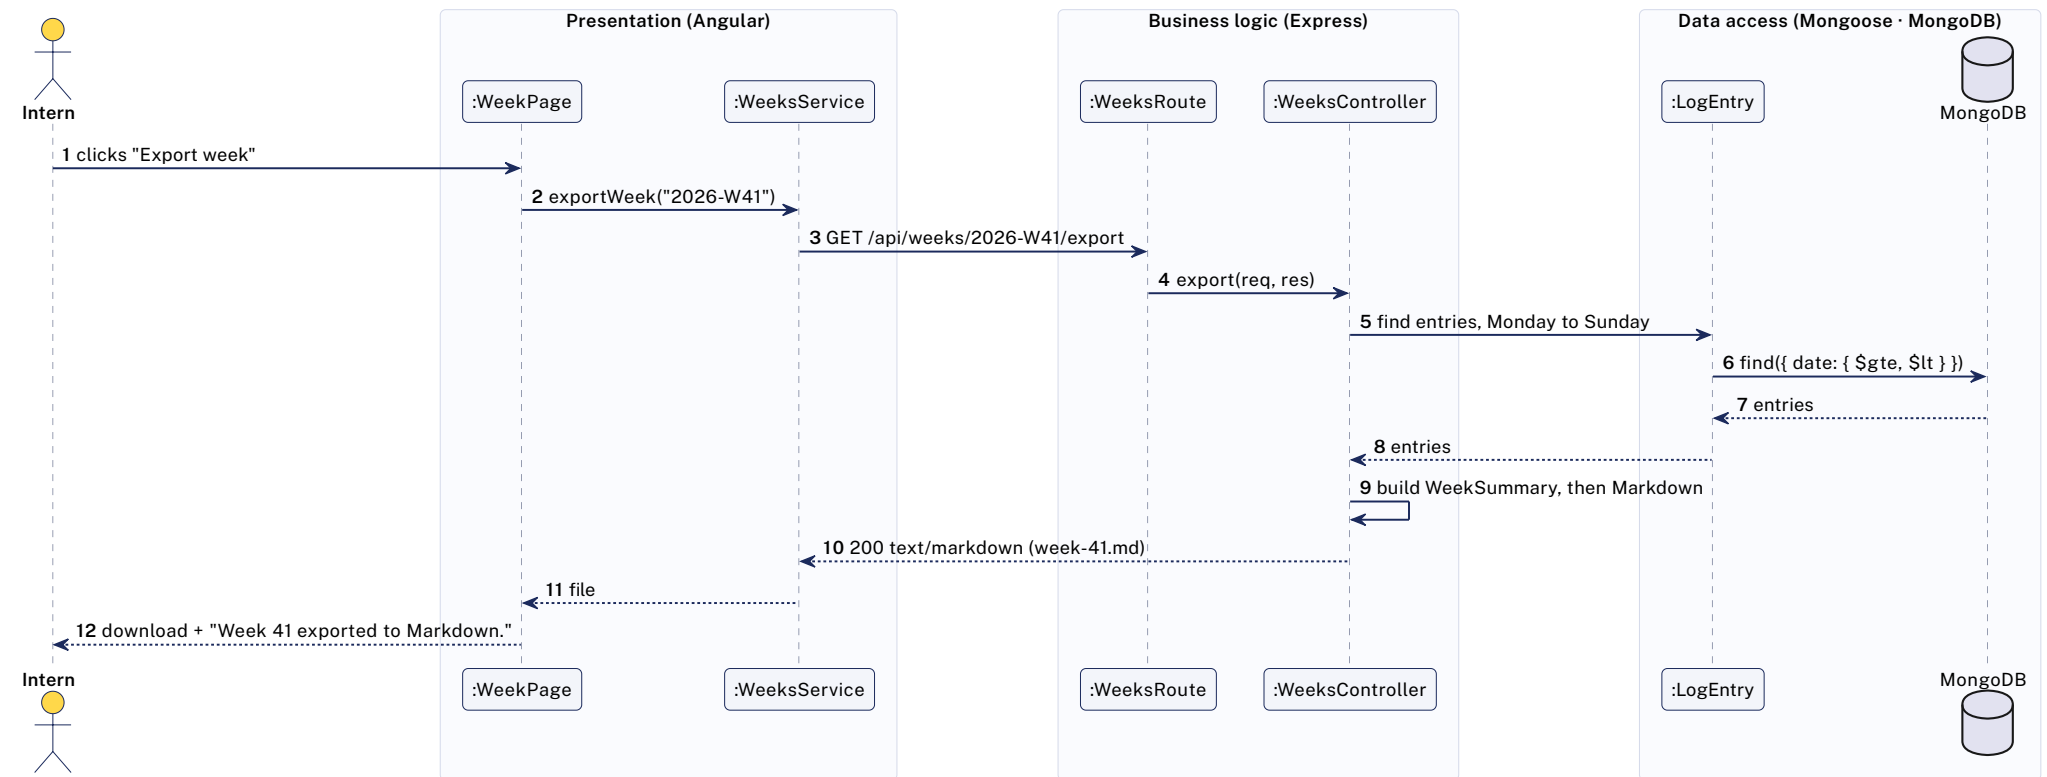

One entry's path through the three layers, with the validation error case.

## 4. Diagramme de séquence : exporter une semaine

Sequence diagram: export a week

Jotern v1 · UML  
2026-10-05

From the Export week button to the Markdown file.
